

WINES THAT TAKE YOU ON A JOURNEY

With CURIUS, the Richard family aims to satisfy today's desires with bold wines crafted for a modern and unpretentious tasting experience. These "Vin de France" wines are produced in the family's estates, perfectly resonating with the current era: light red, delicate rosé, luscious white, deep red... Diverse wine profiles meant to be enjoyed chilled, not exceeding 12.5°, with a finish subtly smoothed by a barely noticeable sweetness.

Cuvée Masquée - Light Red Vin de France

TECHNIQUE : Skin maceration for 24 hours. The juices are kept cold for 2 days before settling. Alcoholic fermentation takes place in stainless steel tanks at low temperatures to preserve aromas.

TASTING : A very light color, aromas of red fruits and tangy berries, a smooth and light mouthfeel, with beautiful freshness and a soft, caressing finish. Best enjoyed chilled, at 13°C, as an aperitif, with a shrimp wok, vegetable risotto, spring rolls, or a Thai salad.

DESIGN : The cat, wearing a Zorro-style mask, embodies the fearless spirit, while the electric bike, both modern and powerful, adds a touch of contemporary flair. With the two dogs in balance, holding glasses of wine, the illustration creates a figure of an acrobat, symbolizing harmony and unexpected pleasure. The château in the background refers to the authenticity of the terroir.
